

INTERNATIONAL MOVING EXPERTS

An international move may be stressful, although this is the first step for your new projects and opportunities. GIL INTERNATIONAL MOVERS will guide you during the process with the best service for you.

1

The first step is calling GIL INTERNATIONAL MOVERS to organize a survey of your belongings, may be virtual or physical. Take that opportunity to ask your concerns about your next move.

2

We will prepare a quote as per your needs, choosing the best destination agent to take care of your goods. We do suggest that you prepare a valued inventory list of your household goods, to insure your cargo.

3

During the packing day, GIL INTERNATIONAL MOVERS will pack your household goods and personal effects with care and expertise. A packing list will be issue for customs procedures and after getting green light from the destination agent the cargo will be release by air or sea.

4

The coordinator from GIL INTERNATIONAL MOVERS in charge of your move will do a follow up of each step, keeping you informed till the delivery date in your new home.
