

WE PROTECT EACH OTHER

GIL INTERNATIONAL MOVERS, on its commitment to offer a high standard and personalized service, has developed the campaign "WE PROTECT EACH OTHER", to promote safe rules of conduct between clients and our personnel to mitigate the growth of COVID-19.

Daily temperature screening before employees enter and leave the workplace.

Our personnel will wear a neat uniform, that was not exposed to public conglomerations. Boots will be clean with a bleach solution before entering the client's residence.

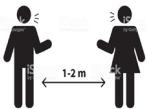

During the whole process of packing, loading and unloading, our personnel will wear masks, as protection. Also clients must wear their own.

Our personnel will clear their hands when arriving to and leaving the client's residence. A bathroom must be designated beforehand to do so.

SOCIAL DISTANCING

Physical distancing is mandatory during the whole process between workers and clients with a minimum of 1mt between each other.

WE PROTECT EACH OTHER will allow us to prevent the growth of COVID-19 and continue offering our moving services to other families. We trust to have your support.
